We adapt technology to your hotel

RoomSoft.Net lets you take complete management of your hotel:

- **Bookings**

With RoomSoft.Net you will have a graphical and clear view of the current situation of your hotel seeing each booking in different colors.

- **Check-in**

The Check-in task will be easy choosing one of the free squares on the matrix.

- **Charges**  
RoomSoft.Net allows adding extra charges in the invoice of the room (minibar, security safe, meals ...)
- **Guest management**  
RoomSoft.Net improves the guest management to maintain a record of previous visits, occupied rooms, costs...

**Guests**
